More Event Details: Race Tech Workshop, Jan. 26-27

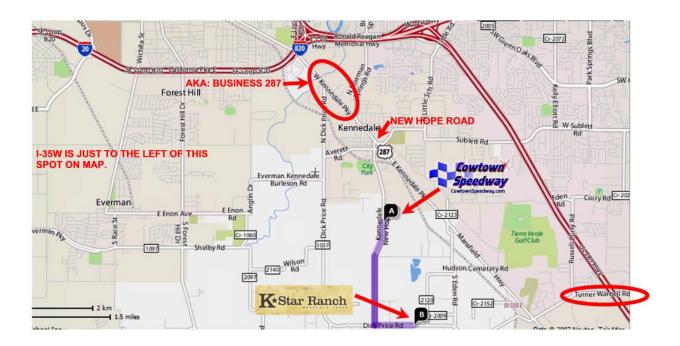

Workshop/Race Track location in relationship to D/FW Metroplex:

Close-up of map/directions from Workshop to Cowtown Speedway:

Just take Dick Price Road west to New Hope Road north, and you will run into the race track on the east side of the road. It's 2.1 miles from the Workshop at K-Star Ranch to Cowtown Speedway.

If you are traveling from points east or west of Dallas, I would suggest taking I-20 to Exit 442A. That is Kennedale Parkway, or Business 287. Go East on 287 until you get to New Hope Road, turn South. (You'll see a sign that says 'racetrack') You'll run into Cowtown Speedway on the East side of road in about 1 1/2 miles. To continue on to the Workshop at K-Star Ranch, just continue south past Cowtown Speedway about a mile and you will run into a T in the road. That is Dick Price Road. Take a Left (East) and the K-Star ranch will be on the Left (North) side in less than a mile.

On the event weekend, I'll have my cell phone with me, you can reach Darin at 515-708-3206 if you need to.
